

## Why you should have a Pub Quiz at your place

- **To increase clientele and revenue**
- **To get in on the latest trend!** Pub quizzing is the next big thing in pub entertainment. Get in on the fun!
- To provide **cheap entertainment** for everyone involved. People need something to do in this recession that is not going to cost an arm and a leg, and just might pay them in the end!
- To give people something active to DO at an establishment, rather than hiring passive entertainment such as a band or a DJ (and is often more expensive too)
- Repeat business: your customers will keep coming back week after week for the quiz!
